

The SB-1 Solid State Disk is designed to maximize the performance available to SATA-2 storage devices. The SB-1 SSD has a sustained write speed of over 250MB per second (est.). The drive comes in 40GB, 80GB, and 160GB capacities.

**Capacity**

- 40, 80, and 160 GB versions available

**Interface**

- industry standard SATA-2 interface

**Performance**

- runs at SATA-2 line speed (270MB/s)
- 20 parallel banks of flash to maximize thru-put
- Sustained writes: 250MB/s (est.)
- Sustained reads: 200MB/s (est.)

**Power**

- 6 watts
- 12V DC

**Physical**

- Industry standard 3.5" form factor
- Low profile (< 0.5")
